

PRIMARY II

PERENNIAL RYEGRASS

PRIMARY II perennial ryegrass is a new release that offers the latest advancements in turfgrass research. **PRIMARY II** has great gray leaf spot resistance, improved traffic stress, good salt tolerance, quick divot recovery and enhanced red thread resistance. **PRIMARY II** offers upgraded density during the growing season along with refined drought performance.

PRIMARY II has improved disease resistance to brown patch and provides a medium dark color with a fine leaf blade. **PRIMARY II** blends well with other perennial ryegrass. This variety also mixes well with Kentucky bluegrass, fine fescue and tall fescue. When looking for the latest technology in perennial ryegrass consider **PRIMARY II** in your program.

FACTS:

- Fine Leaf Texture
- Good Wear Tolerance
- Handles Close Mowing
- Good Drought Tolerance
- Great Turf Density
- Excellent Gray Leaf Spot Resistance
- Great Disease Resistance
- Ideal for Overseeding Warm Season Grasses
