

TEMPLE

TURF TYPE TALL FESCUE

TEMPLE is turf type tall fescue that was developed for top tier performance in the Southeast and Transition regions of the US. This variety has a dwarf, aggressive growth habit which helps it repair damaged areas of turf. **TEMPLE** has good performance in the NTEP schedule A and schedule B maintenance trials.

TEMPLE generates a beautiful turf with year round density during the growing season, medium to narrow blade width, dark green color and some shade tolerance. **TEMPLE** has improved disease resistance to issues like Brown Patch, Net Blotch and some resistance to Gray Leaf Spot. **TEMPLE** blends well with other tall fescues and mixes well with Kentucky bluegrass, perennial ryegrass and hard fescue.

FACTS:

- Great Brown Patch and Net Blotch resistance
- Prominent Density During the Growing Season
- Good Drought Tolerance
- Dwarf Growth Habit

APPLICATIONS:

- Residential Lawns
- Parks
- Sod Productions
- Sports Fields
- Commercial Properties
- Golf Course Roughs

SEEDING RATES:

- New Establishment:
8-10 LBS/1000 sq. ft.
- Overseeding:
4-5 LBS/1000 sq. ft.
